- Brand : OrCam

OrCam Read

OrCam Read is a highly advanced, lightweight smart camera device. Using artificial intelligence, it instantly reads any printed or digital text from books, newspapers, smartphone screens, computers, etc. Use is intuitive, with a simple press of a button. Listening is done via the device's mini-speaker or via headphones or earphones (wired or wirelessly via Bluetooth connection). OrCam Read is the most efficient reading device in its category on the market, offers fast text reading and is the only one that can read a whole page. OrCam Read is designed for people of all ages and does not require an internet connection.

Big enough to fit in your handbag, small enough to fit in your pocket, OrCam Read joins you at any time of the day. Easy to use, you just need to point OrCam Read at the area you wish to have read. Whether it is a whole page of text or a partial text on an object or label.

Optional : A unique stand designed by Sensotec

Thanks to the special stand developed by Sensotec, blind users can also use this device as a reading device. The tripod is partly made of aluminium, measures 29 cm when unfolded and weighs only 475 g. Light and compact, you can therefore easily carry it in your bag. The ideal tool for working, reading, etc. at home and on the go, ensuring more independence in your daily life.

Choose between 2 types

- **OrCam Read Audiostand** with bluetooth, battery and speaker
- **OrCam Read stand Light** without bluetooth, battery and speaker also usable as a reading device for blind users
